

## **Curtis Fitch Solutions – The Top Choice for GNER**

Curtis Fitch and GNER have announced that, as a result of the significant value already added for GNER, by using Curtis Fitch solutions on specific projects, they are forming a partnership agreement to achieve eAuction solutions through the Curtis Fitch iSource™ product combined with a dedicated consultancy team.

*"We are delighted with the savings we have achieved working with the strategic sourcing consultants and the easy-to-use service from Curtis Fitch."*

### **David Edwards - Head of Procurement, GNER**

*"The partnership is in line with our strategy to partner leading consultancies to deliver eSourcing solutions to market leading organisations globally."*

### **Matt Griffiths - Business Development Director, Curtis Fitch**

## **GNER**

GNER commenced operating in 1996 and provides fast, frequent rail services between London, the East Midlands, Yorkshire, the North East of England and Scotland, carrying more than 17.4 million passengers a year.

In the latest independent National Passenger Survey, GNER achieved its highest ever satisfaction rating and is currently spending £125 million on new and more advanced train technology, modernising stations, WiFi on all trains, improved passenger information and easier ticket purchase.

## **Curtis Fitch**

Founded in 2004, Curtis Fitch is a software development company and a pioneer of Software as a Service (SaaS).

In a short time, Curtis Fitch has become a leading provider, UK and worldwide, of eSourcing solutions that can deliver cost savings of 50%, or even more, on purchasing spend as well as providing dedicated consultants to ensure rapid deployment within commercial organisations. Through their successful partnerships they are delivering market leading eSourcing programmes across the whole industrial range – sector organisations and global corporations alike.
